

SAP Agricultural Contract Management (ACM)

Contract Management. Refined to Your Needs.

SAP Agricultural Contract Management (SAP ACM) facilitates comprehensive management of agricultural deal activities from inception to reception, ensuring complete transparency, consolidated settlement and revenue recognition.

We Understand Your Challenges

Complex settlements can be challenging to consolidate, which can cause additional costs due to **price fluctuations**.

Managing agricultural contracts often implies **multiple systems**, which can be time-consuming and increases complexity.

Proper information flow can be hard to achieve, considering **different requirements** from different departments (Sales, Controlling, Logistics).

Why SAP Agricultural Contract Management

Dynamic pricing updates during contract negotiations, while **built-in sophisticated risk management** for commodity contracts gives you complete visibility.

Highly flexible, automated solution that is compatible with all types of contracts, ensuring **single source of truth**.

Real-time informations about **contract performance, inventory status, and risk assessment**.

What makes msg global unique

Strategic Guidance

Tailored consulting services from planning & industry experts will support you in transformation journey.

Technical Experts

Deep solution knowledge + ability to optimize performance, maintenance, and user experience.

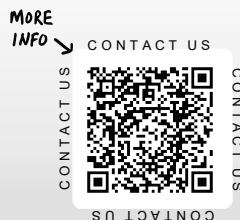

Dedicated Team

All we do is SAP, and have a proven track record delivering projects on time on budget with high client satisfaction.
